

The Ohio Department of Education has elected not to issue grades for schools due to the impact of quarantine related closures, however at Stepstone Academy, we do understand there are many important measures of success. We are encouraged by the progress our students have made and want to celebrate those accomplishments. We are proud to be the highest performing school in Cleveland's Central Neighborhood.

Following is a snapshot of our data:

How many third graders met the Third Grade Reading Guarantee requirements for promotion to 4th grade? **100.0%**

Many of our students enter school needing significant development in their literacy skills; without intervention, they are likely to struggle with reading comprehension in later grades. With our newly implemented literacy programming we have seen significant gains in student growth. We expect to continue this trend over the coming years as a result of our commitment to improving literacy for all students at Stepstone Academy.

Jim Dombrowski- Superintendent
